

Student's name and surname : _____

Class: _____

Age: _____

Nationality: _____

Teacher's name and surname: _____

School name, address and telephone

no.: _____ -

Date: _____

SHORT ESSAY AND DESIGN:

The project for a new currency that will unite the world's continents marks an historic watershed for the world in economic, political and social terms. We need only consider that the arrival of the Euro has brought together many European nations, with great benefits for trade, tourism and social exchange.

Express in brief your hopes for, and thoughts on, the possible introduction of a new UFWC currency in the future. Then, draw your design of what this currency will look like.

THE NAME:

Name of the new currency:

The name can be: completely made up; a combination of existing words; initials; or anything else that comes to mind.

THE SYMBOL:

A new currency needs a symbol which will immediately identify it. Think for example of other existing symbols (\$ for the Dollar; £ for British Sterling, € for the Euro; ¥ for the Japanese Yen; etc.).

Invent a symbol. Explain in a few lines why you decided on this symbol and what it represents.

Please note: We are unable to return submitted works. By sending us your designs, you are kindly consenting to their becoming property of the UFWC program. Said designs may also be used at the UFWC program's discretion for future initiative aims. Thank you.
